

Package code	Procedure Name	Description of the wounds with Procedures	Package Amount (in Rs.)	L1	L2	L3	Document to be uploaded for claims
1	Simple Injury-I	Treating simple wound + Injection Tetvac + Analgesic + Antibiotics ,General conditions(like BP, Pulse etc),Cleaning, suturing and Dressing of the wounds	1000	Y	Y	Y	1) Scanned copy of MLC Register showing the details of injury and Police intimation copy. 2)Two Photos showing the wound before and after treatment with showing the patient face clearly along with the treating doctor(includes patient photo for identity). 3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report. 4) Hospital Bill.
2	Simple Injury -II(including face and scalp)	Treating simple wound + Injection Tetvac + Analgesic + Antibiotics ,General conditions(like BP, Pulse etc),Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the I V line + multiple cut lacerated wounds suturing (Admission/Day Care).	2500	Y	Y	Y	1)Scanned copy of MLC Register showing the details of injury and Police intimation copy. 2)Two Photos showing the wound before and after treatment with showing the patient face clearly along with the treating doctor(includes patient photo for identity).3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report. 4) Hospital Bill.
4	Deglove Injury of Extremities	Wound debridement of deglove injury in operation theatre under anaesthesia + starting the IV line + IV antibiotics + remaining wounds suturing and Treatment as In Patient.	12000	Y	Y	Y	Documents SI.No 1 - 4 are Same Package code 1 + (5) X-Rays to rule out fracture
5	Simple fracture with closed reduction without anaesthesia	Cleaning,suturing and Dressing of the wounds + fracture stabilization with splint .	1500	Y	Y	Y	Documents SI.No 1 - 4 are Same Package code 1 + (5) X-Rays to rule out fracture
6	Closed Fracture reduction under anaesthesia for first fracture	Cleaning,suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress +Closed fracture reduction under short GA with plastering and treated as Inpatient.	4000	Y	Y	Y	Documents SI.No 1 - 4 are Same as Package Code 1 + (5) Two photos showing the LIMB before and after FRACTURE REDUCTION (showing the patient face clearly along with the treating doctor (includes patient photo for identity) (6)X-Ray showing the fracture before and after stabilization (7)Blood Investigation
7	Closed Fracture Reduction under anaesthesia for first and additional fracture	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress +Closed fracture reduction under short GA with plastering and treated as Inpatient.	5500	Y	Y	Y	Documents SI.No 1 - 4 are Same as Package Code 1 +(5) Two photos showing the LIMB before and after FRACTURE REDUCTION (showing the pt face clearly along with the treating doctor (includes patient photo for identity) (6)X-Ray showing the fracture before and after stabilization (7)Blood Investigation
8	Dislocation reduction under anaesthesia	Wound Management + Includes joint dislocation reduction under General Anaesthesia and Treated as In Patient.	8000	Y	Y	Y	Documents SI.No 1 - 4 are Same as Package Code 1 + (5) X-Ray showing dislocation of joints before and after reduction
9	Simple/Compound fracture with internal/external fixation along with implants	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + internal/external fixation of the fracture (in compound fractures)/Flap Cover and Treated as In Patient.	21000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 +(5)X-Ray showing fracture before and after applying internal/external fixators
10	Inter costal Drainage (ICD) one side	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + inter costal drainage and Treated as In Patient.	8000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 + (5)Chest X-Ray before and after ICD. (6)Any other special investigation like ECG etc.,
11	Inter costal Drainage (ICD) Bilateral (Final chest)	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + inserting Bilateral intercostal Drainage set and treated as Inpatient	11000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 + (5) X-Rays of chest before and after ICD. (6)Special investigation like CT.
12	Inter costal Drainage (ICD) Bilateral (Final chest) with ICU	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + inserting Bilateral intercostal Drainage set and treated as Inpatient	12000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 + (5) X-Rays of chest before and after ICD. (6)Special investigation like CT.
13	Inter costal Drainage (ICD) Bilateral (Final chest) with ICU stay with ventilator	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + inserting Bilateral intercostal Drainage set and treated as Inpatient	14000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 + (5) X-Rays of chest before and after ICD. (6)Special investigation like CT.
14	Blunt injury abdomen	Cleaning, suturing(if required) and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + Suspected blunt injury abdomen , stabilization as inpatient and/or transfer to level 1 if required	10000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 + (5)Blood investigation, (6)Chest x-ray and X-ray of erect abdomen, (7)Ultrasound, (8)CT scan report - If required (9)ECG with report - If required.
15	Blunt injury abdomen with ICU stay	Cleaning, suturing(if required) and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + Suspected blunt injury abdomen , stabilization as inpatient and/or transfer to level 1 if required	12000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 + (5)Blood investigation, (6)Chest x-ray and erect abdomen, (7)Ultrasound, (8)CT scan report - If required (9)ECG with report - If required.
16	SUPRA PUBIC CYSTOSTOMY	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + Supra Pubic Cystectomy and treated as Inpatient.	5000	Y	Y	N	Documents SI.No 1 - 4 are Same as Above +(5)Two Photos showing the patient before and after SPC, (6)Blood investigation, (7)Ultrasound abdomen, (8)X-ray of pelvis showing fracture.
18	Immobilization for suspected spine injuries	Non operative Management of spine injury using spinal brace/collar & supportive medication after x-ray	2000	Y	Y	N	Documents SI. No 1 - 4 are Same Package Code 1 + (5), X-ray spine
19	spine injuries - with CT/MRI	Cleaning, suturing and Dressing of the wounds if any + Stabilization of Spine (procedure to be taken in level 1 hospital which includes CT Scan / MRI)	7000	Y	Y	N	Documents SI. No 1 - 4 are Same Package Code 1 + (5) X-Rays of the Spine - AP/Lateral (6) CT/MRI
20	Tracheostomy	Tracheostomy	5000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 + (5) Description of wound Details of treatment given Photos showing Tracheostomy.
21	Head injury with ICU stay (Conservative)	Non operative management of head injury with ICU stay , anti-oedema measures like mannitol, anticonvulsant, antibiotic , monitoring ICU, blood investigations ,CT brain 1 part, X-Ray of other area.	7000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 + (5)Report of the CT scan (6)Other relevant investigations
22	Head injury with ICU stay with ventilator	Non operative management of head injury with ICU stay with Ventilator support , anti oedema measures like mannitol, anticonvulsant, antibiotic , monitoring ICU, blood investigations including ABG ,CT brain 1 part, X-Ray of other area.	15000	Y	Y	N	Documents SI.No 1 - 4 are Same as Above+ Other relevant investigations+ CT Scan report, Associated with relevant procedural package to be indicated and uploaded with that package with justification.
23	Head injury with ICU surgical Intervention (like burrhole surgery)	Operative management of head injury which includes ICU stay with Ventilator Support, anti oedema measures like mannitol, anticonvulsant, anti biotic , monitor in ICU, blood investigation including ABG, CT brain 1 part, X-Ray of other area.,	25000	Y	N	N	Documents SI.No 1 - 4 are Same as Above + (5)Report of the CT scan, (6)Other relevant investigations + (5)Report of the CT scan, (6)Other relevant investigations
24	Blood transfusion	Blood Transfusion per Unit(Bottle) (Max Admissible - 3 UNITS)	1500	Y	Y	N	Associated with relevant procedural package to be indicated and uploaded with that package.
25	RTA injuries associated with burns(conservative management)	Conservative management of Burns	4000	Y	Y	N	Documents SI. No 1 - 4 are Same Package Code 1 + (5) Investigations report.
26	Simple/Compound fracture with fixator along with implants for bones of Foot & Hand	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + internal/external fixation of the fracture (in compound fractures)/Flap Cover and Treated as In Patient.	12000	Y	Y	N	Documents SI.No 1 - 4 are Same Package Code 1 +(5)X-Ray showing fracture before and after applying internal/external fixators
27	ICU stay other than head injury	Non operative management of injury with ICU stay , anti-oedema measures like mannitol, anticonvulsant, antibiotic , monitoring ICU, blood investigations, X-Ray of other area.	4000	Y	Y	N	Documents SI.No 1 - 4 are Same as Above+ Other relevant investigations
